Construction Interest Rate	2.990%	

REACH Program

Base REACH Program: Fixed Annual Interest Rate of 2.95% and Combined Fees of 1% for Permanent and 2% for Construction and Permanent (5)

Notes:

1. All rates assume fully amortizing loans with terms not to exceed 30 years. Adjustments for terms up to 35 years will be made available on a deal by deal basis.
2. For the Taxable Program, all interest rates and monthly premiums change with market conditions throughout the day. Actual interest rates will be established upon lock-in. Rate locks can normally be executed from 9:00 a.m. to 3:00 p.m., Monday through Friday, with the exception of holidays, bond market closings and any day on which VHDA offices are closed.
3. In the base case, the Construction Interest Rate is applicable from rate lock (taxable) or bond closing (tax-exempt) until 15 months later. The Permanent Interest Rate is effective thereafter. The Construction Rate Period may be extended (or shortened) by adding (or subtracting) the monthly Premium to (or from) the base Permanent Interest Rate for each month added (or subtracted). Such adjustment cannot be made after rate lock. The Permanent Interest Rate will become effective as scheduled, even if permanent conversion is delayed. The Construction Interest Rate Period is not to exceed 24 months and in no case will extend past the first day of the month immediately preceding the first scheduled principal and interest payment.
4. For the Tax-Exempt Program, interest rates will be established at the time of bond pricing.
5. For the REACH Program, interest rates are subject to change at least quarterly.
6. For construction and permanent loans greater than \$7.5 million, the combined processing and financing fees will be 2% for the first \$7.5 million and 1.125% thereafter.
