Notes:

1. For the Taxable Program, all interest rates and monthly premiums change with market conditions throughout the day. Actual interest rates will be established upon lock-in. Rate locks can normally be executed from 9:00 a.m. to 3:00 p.m., Monday through Friday, with the exception of holidays, bond market closings and any day on which VHDA offices are closed.
2. The financing fee (not the processing fee) can be reduced by an increase in the interest rate at the exchange rate of 15 basis points (0.15%) in interest rate for each one percent (1%) financing fee not paid upfront.
3. In the base case, the Construction Interest Rate is applicable from rate lock until 15 months later. The Permanent Interest Rate is effective thereafter. The Construction Rate Period may be extended (or shortened) by adding (or subtracting) the monthly Premium to (or from) the base Permanent Interest Rate for each month added (or subtracted). Such adjustment cannot be made after rate lock. The Permanent Interest Rate will become effective as scheduled, even if permanent closing is delayed. The Construction Interest Rate Period is not to exceed 24 months and in no case will extend past the first day of the month immediately preceding the first scheduled principal and interest payment.
4. For the Tax-Exempt Program, the actual interest rate will be established at the time of bond pricing.
5. For the REACH / SPARC Program, interest rates are subject to change at least quarterly.
