

Did you know?

As of October 2019, nearly 1,000 adults with a developmental disability in the **Settlement Agreement population** are living in their own home in the community with natural, Medicaid waiver and other supports? Many have done so using resources made available specifically to this population. **You can too!**

The map below shows where eligible individuals can access dedicated housing resources that have been made available to help adults in the Settlement Agreement Population who want to live in their own home in the community with supports.

Housing Resources have been developed in 77 counties and 35 cities across Virginia.
Take a look at the map to find out if housing resources may be available where you want to live!

**Some Localities have SRAP and Housing Choice Voucher Set-asides via VHDA or a local Public Housing Agency.*
